

Offerings in the Department of Economics

Robins School of Business

“Think like an economist.”

Majors in Economics

A major in economics is offered through both the Arts & Sciences as well as the Robins School of Business. Requirements are the same for each major: ten economics courses including Econ 101, 102, 270, 271, 272, four economics electives (at least two of which must be at the 300-level), and a Senior Capstone Experience (Econ 480 or 490/491). Majors are also required to take calculus and business statistics.

Major in Mathematical Economics

Students might also consider taking the combined major in Mathematical Economics. Courses are taught by faculty in both the mathematics and economics departments. Sixteen courses are required and majors receive a B.S. degree in the School of Arts & Sciences.

Minor in Economics

A minor in economics, offered through the School of Arts & Sciences, requires six courses in economics, including Econ 101, 102, 271, 272, and two economics electives (at least one of which must be at the 300 level). Calculus is also required for the minor.

Concentrations in Economics

- A concentration in economics, offered for business majors, requires a total of six courses in economics, including Econ 101, 102, and four electives at the 200 or 300 level.
- A concentration in international economics is offered for international studies majors through the School of Arts & Sciences. In addition to the requirements for the major, this concentration requires five courses in economics, including Econ 101, 102, and three international economics electives.
